

Does your child suffer from fainting spells?

A high-school basketball star collapses and dies during a game before he can ever cry for help.

Autopsy report:
Unknown cause of death.

DOES YOUR CHILD HAVE ANY OF THE FOLLOWING? IF SO, THEY SHOULD BE SEEN BY A DOCTOR.

- Family history of unexpected, unexplained sudden death of a young person
- Fainting or seizure during exercise, excitement or when startled
- Consistent or unusual chest pain and/or shortness of breath during exercise

If your child has any of the above symptoms or history, please contact your physician or the SADS Foundation for more information.
